## ALLEGED POISON PLOT KILLINGS STIR TINY MISSOURI VILLAGE

KING BRUCE MRS. EFFIE DECKER

MRS. SALLY BRUCE C. E. DECKER

BY MABEL ABBOTT.  
N. E. A. Staff Correspondent.  
STOCKTON, Mo., May 29.—The preliminary hearing in the Effie Decker case, will be held May 28 in the court- house in the little square at Stockton. Stockton is almost 100 years old. It has only 700 population, no telegraph, and no railroad.

Yet Stockton is a wealthy town. The farms surrounding it are steep and stony, but wonderfully rich. It has two banks and almost as many automo- biles as inhabitants.

Both in Jail.  
Mrs. Decker is in the Stockton jail, suspected of poisoning her husband. Bruce is in jail at Nevada, Mo., sus- pected of poisoning his wife.

The wealthiest farmer in the coun- ty is Eber White, Effie Decker's father.  
Last December Ed Decker died. Two weeks later, Mrs. Bruce died, with similar symptoms. A few days later Mrs. Decker went down the road to Bruce's home and became his house- keeper. A buzz of scandal started.

Decker's brothers started an inves- tigation. Decker's body was exhumed. The State University reported "enough arsenic to kill three persons."

Mrs. Decker was arrested, released on \$15,000 bond furnished by her father, and went back to Bruce's house. Then the body of Mrs. Bruce was ex- humed. A preliminary report indicated arsenic in deadly quantities.

County Flamed Up.  
The county flamed up. Bruce was ar- rested as he worked in his fields. Mrs. Decker's bond was revoked. She was taken to the Stockton jail, and Bruce, partly to keep the two separate and partly to avoid any possible attempt at violence, was taken to Nevada, Mo.

Mrs. Decker maintains her inno- cence. So does Bruce.

Eber White says he will furnish the money for his daughter's defense. "I talked the thing over with her when they took up Decker's body," he told me. "I said, Effie, I'll give you the money to go." But she said she didn't want to go. "I'll see that she has a fair trial," if she did it she ought to be punished.

of the committee will arrive tomor- row.

Mr. Hays' first official act will be to entertain the newspaper corres- pondents at luncheon, when he will discuss with those committeemen who may be here, the selection of a permanent convention chairman.

One of the problems which con- fronts the committee is the re- ducing of over-sized delegations to a size which will permit of their being seated in the space reserved for delegates.

According to Secretary Miller a majority of these cases resulted from attempts to harmonize factions in various states and when the dele- gations were asked to cut down their membership to conform to the con- vention call, the same old problems bobbed up again.

Same Old Problems  
Undiminished confidence was re- flected in the announcements to- night from the Lowden, Wood and Johnson managers. The Lowden camp emphasized an announcement by Jacob Haman of Oklahoma that the delegates from that state would vote solidly for the Illinois execu- tive.

The Hoover headquarters took on added activity with the arrival of a large force of workers from New York. There was a steady stream of callers at Harding headquarters.

Mayor Thompson today appointed a committee to welcome the Repub- lican national convention delegates. It was announced that 2,000 automo- biles and six bands had been placed at the use of the committee.

## Woman Accidentally Killed, Jury Finds

Mrs. Mayme Collins, colored, who was found dead on the Union Pacific track at Beaman, Wyoming, during the first part of this week, came to her death by either falling or jump- ing from a passenger train, according to the verdict of a coroner's jury, re- ceived in Ogden yesterday.

It was discovered that the woman's foot had caught and that she had been dragged for considerable distance, this fact accounting for her lack of cloth- ing when found, her garments having been ripped from her body.

Buck Thomas, the negro who was accompanying the woman, was taken into custody at Beaman, Wyoming. He testified that both he and the woman were drunk, and that she had shouted "Goodbye, Mr. Thomas," and then jumped.

Thomas was released from the Wyoming penitentiary about two weeks ago, after having served a term for the murder of a Mexican at Rock Springs, it was stated. He was re- leased following the coroner's inquest.

## G.O.P. PLATFORM IS NEAR READY

Tentative Draft Without Mexi- can and World League Planks

WASHINGTON, May 29.—A tenta- tive draft of the Republican national platform has about been completed by the group of party leaders in confer- ence on the subject here. It will be ready for submission early next week to prospective members of the resolu- tions committee who will be given several days to study it before the Chicago convention meets.

Planks on Mexico and the league of nations are omitted from the draft. It was said today that the party's stand on these subjects would have to be worked out at Chicago.

The Mexican plank is generally ex- pected to follow the finding of the senate sub-committee which has spent several months investigating Mexican affairs. The sub-committee is about ready to make its report.

In order to discuss the treaty plank and put finishing touches on the other platform declarations, a num- ber of prospective members of the resolutions committee have been asked to meet in Chicago next Fri- day with Senator Watson of Indiana, who is slated for chairman of the committee which will frame the plat- form.

CHICAGO, May 29.—Herbert Fleish- hacker, of San Francisco, a California delegate to the Republican national convention, who arrived in Chicago today, issued a statement which he said was in answer to "charges of radicalism against Senator Hiram W. Johnson."

"Johnson gave California the finest business administration it has ever had, and through his state board of control worked out administrative ef- ficiency and economy from adminis- trative chaos and incompetency," said the statement which was signed by fifty heads of industrial and business concerns on the Pacific coast.

"Law and order were never more secure in California than during Johnson's administration. Labor and capital in California have equal con- fidence in Johnson because he sees his way clearly, he keeps his word firmly and keeps his feet on the ground."
